

## Banner Navigation

Internet Native Banner gives you several options for navigating.

- Menu Bar
- Toolbar Icons
- Hierarchical Menu

## Key Information Block

Banner forms are broken into **information blocks**. The key information block appears at the top of the form.

The screenshot displays the Oracle Developer Forms Runtime - Web interface. The top section, enclosed in a dashed box and labeled "Key Information Block", contains several dropdown menus and text boxes for data entry:

- Chart: S
- Fiscal Year: 06
- Index: (empty)
- Commit Type: Both
- Fund: 112000 (Formula Alpine)
- Organization: 140700 (Purchasing)
- Account: (empty)
- Program: (empty)

Below this is a "Control Keys" section with input fields for Fund, Organization, Account, and Program. The main area is a table labeled "Information Block" with the following columns: Account, Title, Adjusted Budget, YTD Activity, Commitments, and Available Balance. The table has multiple rows, with a "Total:" row at the bottom. A vertical scrollbar is visible on the right side of the table.

At the bottom of the form, there is a status bar with the text "Account; Press List for valid codes." and "Record: 1/1".

## Next Block, Rollback, Exit

Once you have completed the information needed in the **key information block**, go to the next block. This can be done by using the **Block menu** or by clicking the **Next Block icon**.

The screenshot shows the Oracle Developer Forms Runtime - Web interface with the "Block" menu open. The menu options are "Next", "Previous", and "Clear". The "Next" option is highlighted. A red box labeled "Block Menu" points to the menu, and another red box labeled "Next Block Icon" points to the "Next" option. The form content below the menu is the same as in the previous screenshot, showing the key information fields and the table.

Once you have moved to the next block, data will appear in the next information block.

Information Block

If you want to go back to the Key Information Block, click on the **Rollback icon**. This will clear the data in the information block and move the cursor back up to the Key Information Block.

To return to the Banner main menu, click on the form's **Exit icon**.
